

Series Cash Tournament

Played at the conclusion of each four-month series, typically in February, June, and October.

- Total prize pool is \$2,000. **Everyone at the final table cashes.**
- Tables are assigned based on chip distribution. Seat assignments are random.
- Players will redraw for seating at final table as usual.

To Qualify: Any player who has accumulated at least 2,500 chips is qualified. See documents under “Earning Chips Toward Cash Tournament” for further details.

All Players Must Pre-Register! - If you qualify, you **MUST** pre-register by noon of the Friday preceding the tournament. Seating will be calculated and posted later that day (the evening before the tournament). Any qualified players who do not pre-register by the deadline will lose their seat in the tournament.

Late Arrivals – Players are given a one-level grace period. A penalty of 200 chips per hand (plus blinds) will be administered. Any players not present by the beginning of the second level will forfeit their seat and remaining stack.

Early Departures - All players must be present for as long as they have chips, in order to continue playing. Sitting out a few hands is fine, but “Leaving and coming back” is not allowed. If a player must leave (family emergency, etc.), they will forfeit their seat and their chips will be removed from the table.

Chopping – **Chops are allowed any time after the final table has been established.**

- Chops **DO NOT** have to be even – they can be done proportionate to remaining stack sizes.
- **EVERYONE** remaining must agree to the terms of a chop.

Please be sure to thank the Dietershagens for being such gracious hosts and making this event possible.

Good Luck!
